

The background is black and features several decorative green elements. At the top, there is a large, stylized floral motif with multiple leaves and two small flowers. To the left, a thin vine spirals downwards. Below the top floral motif, there is a large, thick green spiral. At the bottom, there is another large floral motif with several leaves and flowers, and a thick green curved line that arches across the lower part of the page.

3. Aufbruchstimmung.....Here is what you missed at oSC14

oSC14 took place in Dubrovnik, Croatia, attracting a large number of Geekos to give and attend talks, organize and attend workshops and have fun at the parties. Compared to previous conferences the attendance at oSC14 was unfortunately on the lighter side of things but never the less we all had a great time. Since oSC13 we certainly had our trials and tribulations which we have left behind us and the mood was extremely positive with everyone being ready to move forward. The many hallway discussions had people discussing the new booth boxes, the progress on openQA and the staging model for Factory development. We shared articles on the event already, had 13K viewers on Bambuser and here we try to provide a bit of a closing overview!

4. oSC 2014 3rd – 4th Day

Geekos gathered at beautiful Dubrovnik in Croatia for their annual meetup. They drunk, they conversed and they shared knowledge and progress of the project. They had fun! The openSUSE Conference's final day and reporting is now detailed below. "The strength to change" was the moto of this conference and it served well its purpose. Many people found their strength and enthusiasm and started contributing to the project. We encourage you to participate. We welcome everyone interested in contributing to an awesome project.
