Asia Summit Highlights Growing Open Source Community in Asia

This weekend is the start of openSUSE's first Asia Summit in Beijing.

The summit, which is a follow on to an open source summit SUSE sponsored in May, is expected to increase awareness in Asia about openSUSE and other Free and Open Source Software (FOSS).

Students, professors and computer technologists attending the summit will listen to several keynote speakers like Dr. Qiu Shanqin, Chairman of China Open Source Software Promotion Union, and Ralf Flaxa, Vice President of SUSE. Richard Brown, President of the openSUSE board, will also provide a keynote speech to attendees.

Noteable workshops scheduled for the conference on Day 1 are SUSE's project manager Anja Stock's about Bugzilla, FOSS community member Eleanor Chen, about Hands-on into Open Source Community, and Saurabh Sood, an engineer working with Unisys Corporation, about Programming with the Qt Framework.

Day 2 workshops include GNOME Foundation member Tong Hui's discussion on Open Source Community Governance in China, Raghu Nayyar, an open-source Interaction Designer and Front-end Developer from India.givng a workshop on Build your First ownCloud App, and Meaglith Ma, founder of the Chinese community of Docker, providing a workshop about open platforms for distributing applications for developers and system administrators.

The summit gives attendees an opportunity to learn about related technologies and can help to unlock the large potiential of open source contributors and developers within Asia.

Interviews and recordings of openSUSE Asia Summit will be posted on SUSE's YouTube, Youku and GooglePlus page.

HP, SUSE, Firefox, CODE, CSDN, BLUG, GNOME Summit, OwnCloud, BeiHang University and Beijing University all sponsored the event; openSUSE appreciates the companys' contributions and willingness to make the first summit a success.

Members of the media are welcome to attend the summit and should email opensuse.asia@gmail.com.

Enjoy the Summit!

openSUSE 13.2: time to get your hands dirty

With less than three weeks from the release of our beloved green distro and the first release candidate already rocking, we can feel like we are almost there. This is exactly the right time to remember that there is still a lot of work to do and fun to have. Open source is awesome, but only as awesome as the people working on it. Nothing will happen unless YOU make it happen, so it's time to get your hands dirty!

LXQt 0.8 发布

LXDE 与 Razor-qt 合体来的 LXQt 终于发布支持 Qt5 的 0.8 版本。

新版本的亮点有：

- 完整 Qt5 支持，只需在编译时启用即可。对于 Qt4 的支持将延续到下个版本。
- 引入新的管理工具 lxqt-admin，支持基本的用户管理及时间日期配置。
- 基于 KDE Plasma Next 实现的 Plasma Next 主题。
- 来自 Inti Alonso 创建的 Dark Alpha 主题。
- 大幅改善多屏显示支持。

Humble Mozilla Bundle

Humble Bundle 新推出的 Mozilla 套装有些不一样，除了跨平台无 DRM 以外，这些游戏还借助 asm.js 实现无插件直接在浏览器内运行。

本次套装中的都是一些老面孔：

- FTL: Advanced Edition
- Voxatron
- Dustforce DX
- Zen Bound 2
- Osmos
- AaaaaAAaaaAAAaaAAAAaAAAAA!!! for the Awesome
- Super Hexagon

若是付费超过 $8 的话，还将获得：

- Democracy 3：西方工业国家的政治家或者议员的生活是什么样子的？这款设计独特的模拟游戏可以让您体验一下。

这几款总零售价达到 $104 的游戏，您现在可以完全自定义价格，并且可以获得无 DRM 限制的 Linux, Win 和 OSX 版本，还有 Steam 平台兑换码。现在购买还可以获得所有游戏的无损原声音乐集。

除此之外，本次套装中的游戏借助 HTML5 asm.js 技术可以运行直接 Firefox 或 Chrome 浏览器中而无需任何插件。您甚至可以直接在网页上试玩游戏。

另外别忘记你的购买价格中的一部分还可以自选捐赠给 Electronic Frontier Foundation 基金会或者 Child's Play Charity 慈善组织。
